FIRST AID PRODUCTS

PRODUCT CATALOG

2018

www.firstplus.com.tr

The owner of the **FirstPlus** brand is Limok Limited Company, founded in 1954.

By holding ISO 13485 and ISO 9001 certificates, Limok Limited Company proves that human health and quality of life are at the core of its business values.

Continuous race with itself in order to provide a better service to the customers makes Limok Limited Company one of the industry's leading brands.

The fundamental goal of Limok Limited Company is to promote the use of **Firstplus** first aid kits, designed by experienced staff, on both human health and life-saving.

FirstPlus first aid kits appeals to a wide variety of areas including cars, watercrafts, residential buildings, work places, burns, educational institutions, worship places, travel, outdoor sports, earthquake-disaster, paramedic and military bags.

FirstPlus first aid kits include CE certified medical products.

FirstPlus first aid kits holds design registration certificate for plastic boxes, plastic cabinets, eva and fabric bags.

Limok Limited Company obtained design patents for **FirstPlus** medical tourniquet with tightening-release switch.

Limok Limited Company, selling both at nationally and internationally, develops customer focused work by providing its corporate customers with the opportunity to produce their own private brands.

Produced for forester, miner, construction workers and for workers who work at high altitudes. Belt clip allows the user to carry it easily.

Any item of the content list, which can not be supplied, will be replaced by an equivalent counterpart.

The image features a close-up, high-angle view of several interlocking gears. The primary focus is on two large gears: a silver one on the left and a blue one on the right. The silver gear has the word 'EXPERIENCE' inscribed on its face in a bold, black, sans-serif font, oriented vertically. The blue gear has the word 'QUALITY' inscribed on its face in the same font and orientation. The background is filled with other, smaller, out-of-focus gears, creating a sense of depth and mechanical complexity. The lighting is bright, casting soft shadows that emphasize the three-dimensional texture of the gear teeth.
